THREE FACTS YOU SHOULD KNOW ABOUT PG&E RATE INCREASES.

ONE:

With only one exception, PG&E rate increases in the past three years have been to offset the higher prices we, PG&E, must pay for fuel oil and natural gas.

TWO:

PG&E rates must reflect the general overall inflation which affects everyone. We can no more control the costs of materials and services we have to pay for than you can control the cost of food, clothing, interest rates, etc.

THREE:

PG&E rates are among the lowest in the nation. Of the 13 largest U.S. cities, only Dallas and Houston have lower gas and electric rates than San Francisco.

Another Fact: You can hold down your utility bill by using energy wisely...conserving when and wherever you can.
